THE CRIME COMMITTED IN THE NAME OF DEMOCRACY.

Editor THE CAUCASIAN :-

Since the last Democratic State convention adjourned this writer has been xpecting to see some charges cleared up and set right before the people. It has been repeatedly charged that the convention did not represent the masses tions. This mighty nation is stirred, of Jeffersonian Democrats, but that it was captured and controlled by men who would prefer to see Cleveland President rather than Bryan. It has also been charged that goldbugs and monopolists who did not support Bryan and silver in 1896, and some who supported either McKinley or Palmer and Buckner, were on hand as delegates helping to defeat a co-operation of the silver and anti-monopoly forces, as recommended by Bryan and the National organi-

Is this so? The people have a right to know, and they will know. There have been no positive and specific denials. The denials come by way of have been no positive and specific denials. The denials come by way of and perfect our republic. We must charging other parties with certain shortcomings. Does this answer the bave harbors all over the earth for the charge? Surely it does not, but, on the other hand, is it not an admission that positive direct denial carnot be made? The sickening conviction is coming navy, and of our shipping. to the masses of the Silver Democrats that the charge is true.

Is it not shameful that 140,000 silver men, who stand for Bryan and the whole the other hand, we must prevent those shores. This report is evidently a bluff on the part of Spain, but in the light and magnificent and extensive sure. It was announced tonight that and onenly supported McKinley or Palmer and Ruckner and that crowd? Var and openly supported McKinley or Palmer and Buckner and that crowd? Yet of a colonial empire on another conbids from steamship companies for the transportation of the prisoners to their native land and proposals will be issued early not party to the policy of Cleveland. Bryan wanted the 140,000 Should make the vast volunteer army and expansion of the vast volunteer army and expansion and the prisoners of the Democratic timent, and under conditions which must result in injustice and in gigantic calling for a payment from the later of \$160,572; dispensing with proof of loyalty during the later war as a present the vast volunteer army and expansion of the party to the policy of Cleveland. Bryan wanted the 140,000 Repairs of the Democratic timent, and under conditions which must result in injustice and in gigantic result in a cotonial empire of a dotter to the party of the party to the policy of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the policy of the vast volunteer army and expansion of the party to the poli crats and the 40,000 Populists to join forces-to co-operate, which would make a sweeping victory over gold and monopoly. Cleveland wanted these silver and anti-monopoly forces kept apart so that gold and monopoly might control the State. These 5,000 Clevelandites have captured the party and carried out PASSENGER RATES REDUCED his goldbug policy. They have not only done this, but these Clevelandites now control the machinery of the party. Will they not use this machinery of Cleveland's till 1900 against Bryan and silver and in support of Cleveland's

gold and monopoly policy?
This is shameful treason that has been committed in the name of Democracy, and this is the reason that the question is dodged and not answered. It was not thus in 1896, when by a union of the silver forces the State electoral ticket was carried for Bryan and silver over the heads of the Clevelandites.

If the charge cannot now be positively denied, if the charge is true, what may silver men expect in 1900? Will not the Clevelandites, who now control the machinery of the party, use it to try to defeat the nomination of Bryan or any true silver man? and, if he should be nominated over their heads, would they not use the machinery of the party to try to defeat him and carry the State for the nominees of the Cleveland-McKinley-Palmer and Buckner combine? Certainly they will. Some of them bolted in 1896 to try to carry the State for McKinley, and, failing by that method, they went to work to capture the machinery of the Democratic party for the same purpose in 1900. This is a question for every silver man who is earnestly opposed to the rule of gold and monopoly to think about, and seriously too.

There were some men at the recent Democratic State convention who had been so bound and who seemed so pronounced in their devotion to silver and n their opposition to monopoly, that the people thought they were sincere. But it seems that they all surrendered to the Clevelandites without even a struggle. They made no fight for their convictions, or, rather, their professed principles. Where was the editor of the News and Observer, the member of the egates of the various counties to at-National committee, the so-called representative of Mr. Bryan and the self-styled "Tribune of the People?" He, too, surrendered at the convention to the Clevelandites. They put him on the platform committee. They told him that he might write all the silver in the platform he wanted, but that he must not The delegates met in caucus insist on carrying the plan of Bryan and Chairman Jones for winning a vic- the court-house at 12 m. In the cautory for silver. They said to him, make all the silver and anti-monopoly pro- cus they decided who could particifessions you want to, but you must surrender the only weapon of success for those professions by the same act that you declare your devotion. And the so-called "Tribune of the People" stepped into the trick. Was he fooled, or did out-lined, so that when the convention of war.

Mr. Bryan foresaw, months ago, that this trick would be worked by the goldbugs and hypocrites in States where the silver sentiment was strong among the masses of the people. In an open letter in the New York Journal he warned the people that in States like North Carolina the goldbugs and monopolists would pretend to be for silver in order to get control of the conventions The Atlantic Coast Line case was which was necessary to win a victory for the people and good governthe last considered and here the ment. Did not this very thing happen at the late Democratic State convention? And did not Mr. Daniels submit to it without a fight? But the people had not been warned of this danger, for a majority of the Democratic papers refused to publish Mr. Bryan's letter containing this warning.

What does it mean? It means that the goldbugs and the pretended silver men (hypocrites) have fooled the people and have gotten complete control of the party machinery. It means that Bryan and the principles he stands for the Salisbury Watchman, were rehave been betrayed—that the people have been betrayed. What can the people roads the Commission made many do? Let them repudiate the traitors!

Don't silver men want success for silver? How can they win? By standing together—by co-operating against gold and monopoly, as advised by Bryan, and Chairman Jones. And if the Democratic State convention had been controlled by men who were sincere for silver and earnestly opposed to gold and monopoly, it would have followed this course.

Don't goldbugs and monopolists want to win a victory for gold and monopoly? Don't they always pursue the course that will bring them victory? Certainly! In this State they could not win by simply combining their strength, because the silver men, if united, are in a large majority; therefore, to win, they must first divide the silver men, and this is the explanation of the action dorse such Democracy and am out of it.

Thus we see that the goldbugs and monopolists put forth tremendous efforts (suppressing the letters of Mr. Bryan and Chairman Jones) for no other purpose than to divide the silver and anti-monopoly forces. They worked this game wherever they could in the last election; they are working it even more nations were in order, and the rule

successfully now.

There are, probably, 40,000 Populists who saved this State for Bryan and free for overcharges should not be en- silver in the last campaign, and that, too, under conditions that put their Mr. H. H. Caldwell, of Cabar possible. The news of the surrender was still being circulated in the first flush of joy when the President and Secretary Alger had arranged that bids should at once be invited or overcharges should not be ensured to furniss that patriotism and devotion to principle to the severest test. These are the men whom every sincere supporter of Bryan and his principles should seek as allies. Did the Democratic State convention seek the co-operation of these men? No, but, on the other hand, it spurned the offer which the Populists had already made. What is the explanation? There are a few thousand gold and monopoly Democrats, who, acting under Cleveland's advice, tried to defeat Bryan in tell the truth about it, but tried to steal for the necessary number of transand July 29th. The penalty as to the last campaign and carry the State for McKinley; and these are the men the glory from Schley for himself.

There is to be no delay. The telegraph company is not less who, with the hypocrites, captured the Democratic State company is not less. control the machinery, and are using it to try to divide the silver and anti-

monopoly forces. This is the explanation.

Does any man need further proof that the convention was not composed of sincere silver delegates? If so, I can be specific. Here, in Duplin county, at took the prisoner from the officer and lynched him.

Now this same Clevelandite was rewarded at the late Democratic State convention by being placed on the Democratic state committee, and the State committee is now composed of such men, because the Clevelandites controlled the convention.

ocrites pretending to befor Bryan and silver (who, by the way, are more numerous and more dangerous than the open goldbugs), have led 140,000 silver voters again into the goldbug trap. They have succeeded in dividing the silver forces (the object aimed at) which is a victory for gold and a defeat for silver. I believe that it is the duty of every true silver man and sincere supporter Providence, R. I., are financially embarrassed. The liabilities of the firm are placed above \$500,000.

Bryan to expose and denounce this trick of the enemy. The quicker the people repudiate these traitors the better. I hope in 1900 to see the true silver and anti-monopoly forces united. But the people must overthrow these levelandites and hypocrites before the silver men can be united. These men gress. are against the Chicago platform and every economic reform that means prosperity to the people.

Remember how these monopolists and goldbugs were dumfounded and scat-

tered with amazement when Bryan was nominated, but most of them hung on to the Democratic ship, some by voting for only a Democratic Constable perhaps, hoping to recapture her. This they have now done by deception. Now, they intend to either scuttle the ship or land her into their goldbug and monopoly harbor. One of the two they will surely do, and the honest masses of the Democratic crew cannot now prevent it, for the monopoly pirates control
